CONE

There is a powerful aesthetic when fire floats in midair. Cone suspended **wood burning fireplace** is hand forged to order and ideal for spaces that require a special presence and focal point. Fire in its natural form the Cone wood burning fireplace provides a beautiful aesthetic of crackling fire and comforting warmth. The first of its kind to be proudly made in South Africa.

The Cone wood burning fireplace comes standard 1000Ø and is forged with carbon steel and finished in a matt coating. Only available in black. The Cone is customised to order to ensure the flue connections and anchor position is perfect for your bespoke environment.
