

# DOT

Fire design for luxury living.

## DOT

The Nero Dot forms part of the Beauty Fires® bio ethanol collection. A domed front and back gives the illusion of floating fire. Hand Forged locally in Cape Town each Dot comes with its own history. Designed to be installed as a vent free biofuel fireplace the Dot can be installed into almost any room. Guaranteed to enhance any environment it's placed and available in two sizes making use of the Beauty Fires® Signature collection biofuel burners.

The Nero Dot is ideal for large lounges and foyers. Its shape cocoons around the fire contained inside to create a sense of warmth and luxury. This model operates on Bio-Fuel, is installed easily DIY by the user and comes with the adjustable Beauty Fires® biofuel vent free burner. Available in Black only.

The Nero collection is designed and manufactured by Beauty Fires® in South Africa.

# DOT FLATBACK

BEAUTY  
FIRES

Fire design for luxury living.

## DOT FLATBACK

The Nero Flatback forms part of the Beauty Fires® bio ethanol collection. Similar to the Dot but with a flatback to allow the fireplace to be closer to the wall. Hand Forged locally in Cape Town each Dot comes with its own history. Designed to be installed as a vent free biofuel fireplace the Dot can be installed into almost any room. Guaranteed to enhance any environment it's placed and available in two sizes making use of the Beauty Fires® Slimline collection biofuel burners.

The Nero Dot Flatback is ideal for lounges, bedrooms and foyers. Its shape cocoons around the fire contained inside to create a sense of warmth and luxury.

This model operates on Bio-Fuel, is installed easily DIY by the user and comes with the adjustable

Beauty Fires® biofuel vent free burner.

Available in Black only. The Nero collection is designed and manufactured by Beauty Fires® in South Africa.
